

Incident Report

Classification: N.I.A High Rank, CCD High Rank

Subject: Conflict with 'The Red Baron' Over Anti-Furry Foreign Affairs

Date: 12 January

Reported By: Phoenix

1. Overview

This report outlines the conflict between myself (Phoenix) and 'The Red Baron,' leader of the militia. The incident arose from disagreements regarding the Anti-Furry Foreign Affairs (AFFA) and subsequent personal attacks in a Discord server.

2. Timeline of Events

- Initial Disagreement:

- 'The Red Baron' criticized AFFA, labeling it a 'fake anti server' and calling its members 'degenerates.'

- In their announcement, they stated that the AFFA contained 'transgenders, furies, and weeb,' undermining its credibility.

- Personal Insults and Harassment:

- 'The Red Baron' referred to me (Phoenix) with derogatory language, including the racial slur 'nigga,' multiple times.

- Despite my attempt to clarify and defend the AFFA's legitimacy, their comments escalated to further ridicule.

- Retaliation Claims:

- 'The Red Baron' later claimed that I had 'roasted him first,' justifying their behavior. However,

evidence contradicts this claim, as the insults began from their side.

3. Evidence

Attached screenshots include:

- 'The Red Baron's' original announcements where AFFA was labeled degenerate.
- Logs of direct communication between myself and 'The Red Baron' in which racial slurs and derogatory remarks were used.
- Contextual conversations that reveal attempts to clarify misunderstandings, including user Marco's mistaken identity.

4. Conclusion

This incident reveals a pattern of unprofessional and offensive conduct from 'The Red Baron.' The misuse of slurs and derogatory remarks violates acceptable standards of communication and undermines efforts for constructive dialogue.
